

## **Design introduction**

The overall structure of the building design is illustrated below. The project is a two-layer family house.

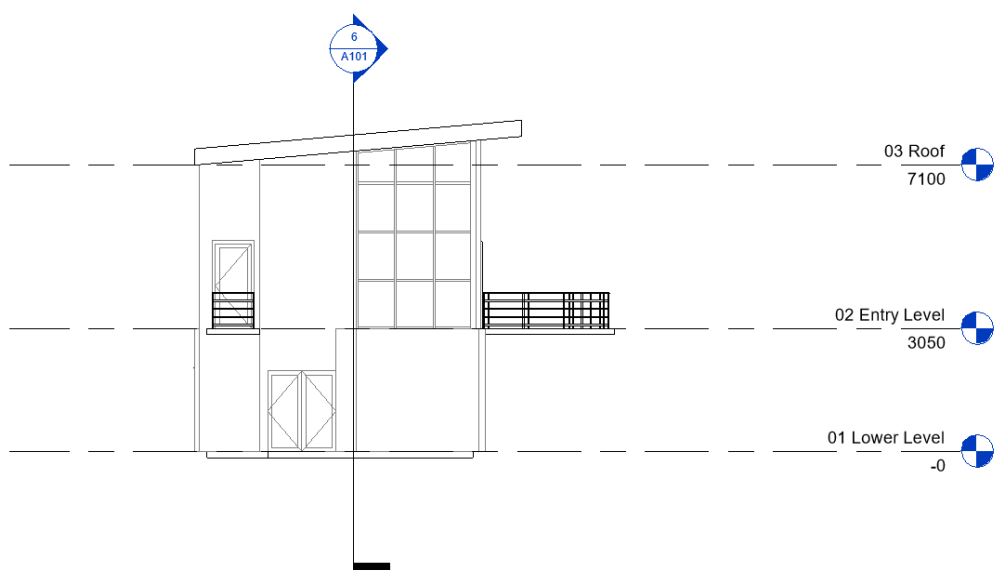

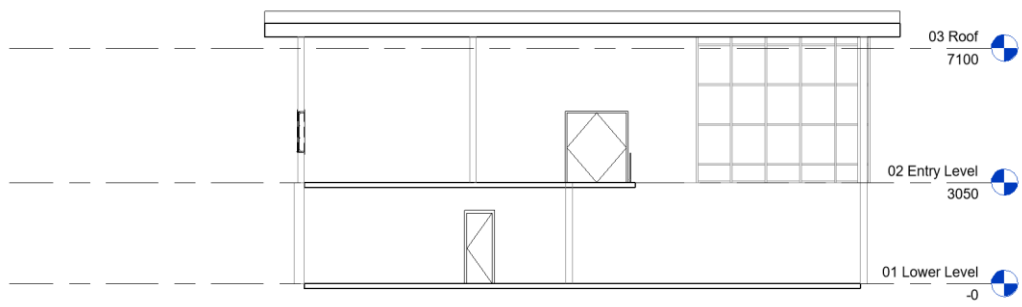

Below shows the floor planning of the entry level. There are four rooms in this level, including a bedroom, a bathroom, a guest room, and a playroom. There is also an open living room, where the lift is also equipped and linked to the second floor.

### **Entry level**

Below shows the building elevation from different direction.
